Dr. Hayu Prabowo

Lecturer at the Islamic Banking and Finance, Indonesia Banking School

Dear Hayu,

I hope you are doing well. I am pleased to extend an invitation to you to participate in the Visio conference titled "Climate Change and Water Stress: Exploring Islamic and Legal Approaches to Resource Management". This conference will take place on March 23 at 14:00 Moroccan time.

As the effects of climate change continue to emerge globally, the issue of water stress is becoming increasingly important. In light of this, our conference aims to delve into the intersection between climate change and water stress and the application of Islamic and legal perspectives in resource management.

We believe that your expertise and insights will enrich our discussions on this important topic. Your participation will greatly contribute to the exchange of knowledge and ideas among the honored participants.

Please note that the conference link will be sent to you at a later date for your convenience.

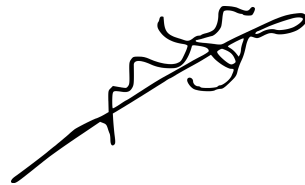

We eagerly look forward to your attendance and look forward to engaging in fruitful discussions on these pressing issues.

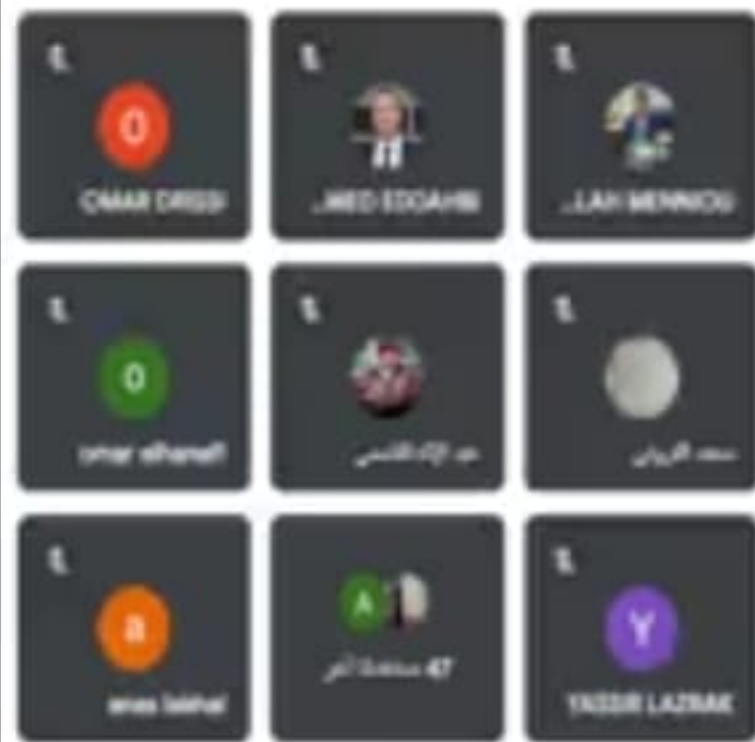

Thank you for accepting this invitation. If you have any questions or require further information, please do not hesitate to contact us.

Warm regards,

Hasna Sousan

President of the Environment and Sustainable Development Club, Faculty of Sharia, Sidi Mohamed Ben Abdallah University, Fez, Morocco

World Water Day On:

WATER STRESS AND CLIMATE CHANGE

Exploring Islamic and Legal Approaches to Resource Management

 Google Meet

14h00 PM Fes/ Morocco time
07h00 AM California/ USA time
21h00 PM Jakarta/ Indonesia time

Saturday March 23, 2024

Background:

Water stress is a big problem worldwide due to population growth and climate change. It's important to raise awareness about the need to care for water resources, use them wisely, and create laws to tackle water challenges. Talking about this helps countries work together to find solutions and preserve water for the future.

The symposium seeks to provide a platform for scholars, researchers, and educators from diverse background to exchange ideas, insights, and research findings related to water stress in light of climate change.

Seminar themes:

1. Water in Islamic law:

- ▶ Understanding water management principles in Sharia law.
- ▶ Applying legal rules to water issues in Islamic law.

2. Law and protection of water resources:

- ▶ Exploring legal frameworks for managing water and protecting water sources.
- ▶ Discussing the role of the judiciary in ensuring water security and sustainable

3. National and international experiences in water management:

- ▶ Learning from using modern technologies to secure water resources.
- ▶ Sharing successful national and international efforts to combat water stress.
